

LUNCH TIME/AFTER SCHOOL CLUB GUIDE

LUNCH TIME/AFTER SCHOOL CLUB GUIDANCE NOTES

YOUR CLASS ENJOYED CARTOON NETWORK CLIMATE CHAMPIONS, NOW THEY CAN ENJOY MORE FUN-FOCUSED NATURE-RELATED CHALLENGES AT A LUNCH TIME/AFTER SCHOOL CLUB!

THE CHALLENGES:

- The core concepts around which this resource has been built are to enhance pupil understanding and knowledge of the need to be vigilant and determined in our protection of planet Earth.
- There's also a focus on British Science Week and its 2023 theme, 'Connections'.
- These themes can be easily adapted to a Lunch Time or After School Club setting.
- This year's British Science Week theme - 'Connections' - can become a valuable club theme.
- With your guidance and the British Science Week website, your pupils can gain important insights into critical environmental themes.
- An interesting (and perhaps more challenging) use of the club setting, is to use pupils' Bug Hotel blueprints (from Lesson 5) as a Design and Build project.
- This would culminate in the production of one or more Bug Hotels for pupils to take home and use in their own gardens, balconies, or other spaces - or in the school grounds as a focus for further study and research.
- The Club could also offer opportunities for wider and deeper exploration of ways of supporting nature; increasing their horticultural skills for example and/or giving the club a strong Nature Club core theme.

HINTS FOR MAKING YOUR CARTOON NETWORK CLIMATE CHAMPIONS CLUB A SUCCESS:

- Pin the Cartoon Network Climate Champions Club poster to your class noticeboard.
- Publicise the brilliant Cartoon Network Climate Champions Competition with a great prize for the winning pupil.
- Pupils will value the club more if you insist on membership - only members are allowed to attend.
- Use the downloadable Reward Certificates to encourage continued participation.
- Get everyone involved; pupils, teachers, TAs, everyone!

REINFORCING THE SCHOOL ETHOS:

Use a Cartoon Network Climate Champions Club to support your school ethos:

- If making the Cartoon Network Climate Champions Bug Hotel, encourage more able crafters to support other, less confident pupils.

CARTOON NETWORK CLIMATE CHAMPIONS CLUB GIVES PUPILS THE CHANCE TO HAVE FUN, IMPROVE PRACTICAL SKILLS AND DEVELOP THEIR KNOWLEDGE AND UNDERSTANDING OF THE NATURAL WORLD!
