

LESSON 2: Adventures in Gardening

LESSON 2: ADVENTURES IN GARDENING

Imagine the countryside without butterflies or bees, gardens with no birdsong.

- Butterflies and bees, robins and blackbirds are beautiful creatures. We think of them as our friends. But they're also Nature's friend.
- It's up to all of us to help them survive, so they can play their part in helping Nature thrive.
- Cartoon Network Climate Champions recognise the need to do more to encourage them to visit our gardens and fields.

HERE'S HOW YOU CAN HELP!

LESSON 2:

WHICH FLOWERS AND PLANTS DO BEES AND BUTTERFLIES PREFER?

- Find out more about Sweet Pea, Larkspur and Poppies.
- Now, check the seed packets your teacher has given you.
- Which flowers would you like to grow?

LESSON 2:

WHICH FLOWERS AND PLANTS DO BEES AND BUTTERFLIES PREFER?

Where will you sow your seeds?

- A seed tray, window box or a patch of ground near your classroom?

LESSON 2:

WHICH FLOWERS AND PLANTS DO BEES AND BUTTERFLIES PREFER?

Create a Cartoon Network Climate Champions Growing Chart:

- Track the progress of your seeds.
- Add photos, sketches and descriptions of each stage of the growing process.

IMAGINE MEETING THE FIRST BEE OR BUTTERFLY TO VISIT A FLOWER THAT YOU HAVE GROWN!

LESSON 2: TAKE CARE OF THE SEED GARDEN!

- It will repay you with beautiful flowers.
- Seeds need you to help them grow.
- Planet Earth needs your help, too.

WELL DONE!

You've taken your first steps to becoming
a Cartoon Network Climate Champion!
