

ACTIVITY SHEET 2

TAKING ON A ROLE

- What will each person in your rocket-design group be responsible for?
- What's your deadline for this stage of the rocket-building process?

QUESTIONS & ANSWERS

- What are the available choices for powering the rocket?
- What material will you use for the rocket's body (the fuselage)?
- What are the rules about using recyclable materials?
- Are any extra LEGO® parts available from any members of the team?
- How will they be incorporated into the design?

HEALTH & SAFETY

- How will your group make sure that every stage of the rocket-building process is 100% safe?

PRESENTING YOUR PLAN

- It's now time to present your rocket design to the class.
- Is the sketch complete?
- Who will explain how the rocket is to be powered?
- Who will explain the design of the fuselage & fins?
